

CHAIRS AND TABLES MADE IN ITALY SINCE 1919 100 YEARS OF EXCELLENCE IN WOODEN WORK

100 years of commitment and craftsmanship knowledge, combined with design, innovation and sustainable development. 100 years of passion and respect for wood. Powered by 4 generations and a single family, shared by many collaborators who, day after day, bring their experience in the company. A century long journey began in 1919, with a small workshop founded by Francesco Piani. The beating heart of a brand now with strong roots in the territory and a look towards the future. 100 years of Made in Italy, on which the world sits. 100 anni di impegno e know-how artigianale, uniti a design, innovazione e sviluppo sostenibile. 100 anni di smisurata passione e rispetto per il legno. Alimentata da 4 generazioni e una sola famiglia, condivisa dai tanti collaboratori che, giorno dopo giorno, portano la loro esperienza in azienda. Un percorso lungo un secolo: iniziato nel 1919, con un piccolo laboratorio artigianale fondato Francesco Piani. Il cuore pulsante di un brand oggi con le radici ben salde nel territorio e lo sguardo verso il futuro. 100 anni di Made in Italy, su cui si accomoda il mondo.

SUSTAINABILITY CERTIFICATIONS

The concrete commitment to the environment has always identified Pival's chain. The processing waste is turned into biomass to produce 100% of the heating and the energy for the drying process. A solar panel system produces clean energy. All products are made using environmentally friendly materials and manufacturing processes. The compounds used are not harmful to the health and the varnish cycle is strictly water-based, a choice adopted over 15 years ago. L'impegno concreto per l'ambiente identifica da sempre i processi produttivi Pival. La biomassa ricavata dagli scarti di lavorazione garantisce il 100% del fabbisogno di riscaldamento e il funzionamento dell'impianto di essiccazione. Il sistema fotovoltaico fornisce energia pulita. I prodotti sono realizzati con materiali e processi di lavorazione eco-compatibili. Vengono utilizzati composti non dannosi per la salute e il ciclo di verniciatura è rigorosamente all'acqua, una scelta adottata da oltre 15 anni.
